BOCAL

The new bocals by Fox are manufactured from nickel silver with silver plating. Available in lengths one (shortest) to three (longest), they are built with new and unique processes to produce a more beautiful, clear and powerful tone.

B Bocal

The Fox B bocal helps favor the lower partials of the bassoon sound to produce greater depth, more power, and a lyrical, dark tone.

T Bocal

The Fox T bocal helps favor the upper partials of the bassoon sound to produce greater flexibility and easy, expressive performance, especially in the high register.

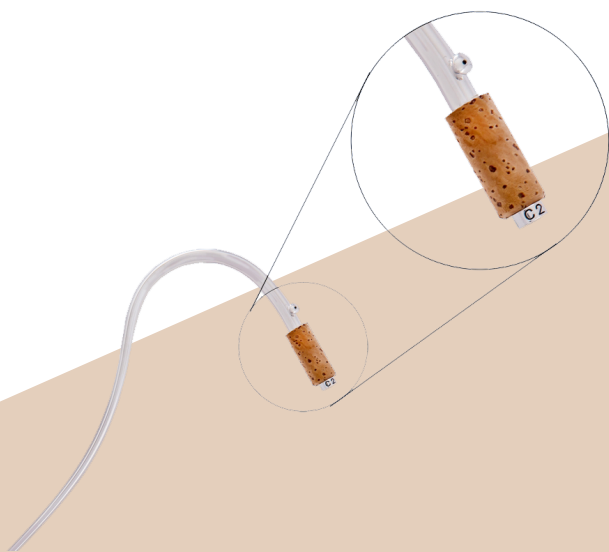

C Bocal

The Fox C bocal is the new entry-level bocal built from better materials for improved performance and greater value.

Fox Products

BOCAL IDENTIFICATION

Fox Products Corporation is a North American manufacturer of double reed instruments. Every instrument is carefully manufactured by skilled technicians and individually play tested by dedicated musicians to guarantee quality.
